

+US WORKFORCE SERVICES

PROCESS YOUR NMNC AGENCY WORKERS

CREATE FURTHER EFFICIENCIES WITH YOUR NMNC TEMPORARY WORKFORCE

Some of the key features when placing your NMNC workers through the Plus Us On-Payroll Service:

VACANCY CREATION AND AUTHORISATION

Our Workforce Services platform is configured to handle all worker types, allowing you to create assignments by department or location which ensures these are authorised by the nominated approver from within your Trust. (We like to call this Track & Trace)!

SUPPLY CHAIN ENGAGEMENT

You need those NMNC assignments filling quickly! The +Us Engagement Team have worked hard to develop our NMNC supply chain, creating quick access to those open assignments through our tiered cascade process.

DID YOU KNOW?

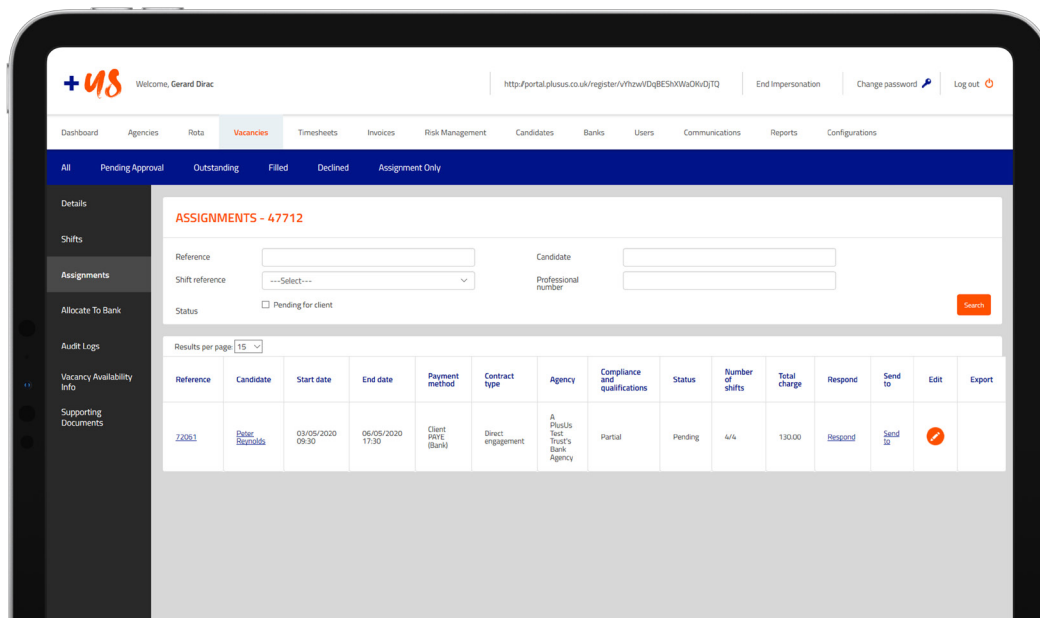

You are able to process all of your Non Medical, Non Clinical (NMNC) Agency Workers through the Plus Us On-Payroll Service, in exactly the same way that we process your current Medical Agency Workers, creating additional VAT savings for re-investment into your Trust!

OUR WORKFORCE SERVICES PLATFORM

All hiring needs are managed via our cloud based platform, this makes it straightforward and easy to access regardless of location. Some key functionality includes:

- Creating and distributing vacancies through our agency cascade module (Tiered Structure)
- Our technology can also work in conjunction with your MV supplier, if there is one already in place, before cascading out to your full supply chain
- Full visibility of your entire NMNC workforce

- Overview of rates, fill rates, speed of recruitment and spend through our built in reporting suite
- Simplicity of uploading and authorising timesheets with integrated invoicing
- All accessible through our portal, or via our mobile app.

INTEGRATED COMPLIANCE

We can further reduce your compliance and administration workload by offering:

- Proof of candidates RTW
- Monthly compliance spot checks on all assigned workers
- IR35 review completed by SRA regulated law firm (Brookson Legal Services)
- Fully compliant outsourced payroll service, ensuring all the correct statutory deductions are taken at source

SEAMLESS TRANSITION

Full access to our Implementation Team who will oversee the process of transition, from the initial capture of data requirements, to system configuration, end user training and full worker engagement and on-boarding.

FEEDBACK CORNER

The +US processes are user friendly and efficient.

At Athona Recruitment we find all the elements of the portal extremely easy to use, from the search function to the fluid and easy way to add new candidates. This, along with the streamlined and simple process of submitting timesheets.

The team at +US are extremely helpful and always provide a very good service for any questions we may have, or any issues that arise. The Engagement Team are always available to help in a professional manner and we cannot recommend +US highly enough.
